## Oil-Cracking Installations.

The only oil-cracking installation in Hungary is at Pet, producing 300 tons per day.

SOURCE EVALUATIONS ARE DEFINITIVE APPRAISAL OF CONTENT IS TENTATIVE.

- A second installation is to be built at Szony, but will not be completed for two or three years.
- Cast-Steel Production. The total Hungarian capacity for cast steel is 3,200 tons per month. This includes:

Diosgyőr

1,000 tons per month 536 tons per month

- Kobanyai Acel 250 tons per month
- Sajo Valley Coal Mines. The Sajo Valley coal mines have been flooded during the last few weeks, owing to heavy rain. They are now being pumped free of water.
- 4. Faulty Construction Work. A 160-ton lathe with horizontal face plate, for working material of 50 tons weight, was received recently from East Germany by the Duclos Factory for Mining Machinery and Mechanical Equipment; it was accompanied by two German fitters. After the first three parts of the machine had been installed, a large crack appeared in the middle of the concrete base, and the assembly of the machinery had to be suspended.
